

# SPA BOOSTER PUMP QB SERIES

## Features & Benefits

#### Powerful Pump Performance

Robust pump design combined with powerful motor options delivers high performance, for a satisfying spa experience.

#### **Stainless Steel Pump Shaft**

Corrosion resistant 316SS pump shaft to ensure years of troublefree use, even in salt water spa pool applications, for an extended pump life.

#### **Energy Efficient**

Single and two speed models available to help conserve energy during filtration cycles.

#### **Flexible Installation**

Pump housing can be turned 180° for easy installation of pipework, horizontal or vertical.

#### **Plug Options**

AMP plugs and C38 plugs available as standard.

#### Quiet

Large suction and discharge outlets allow for higher performance but at lower noise levels, ensuring a powerful yet relaxing spa experience.

#### **Enhanced Pump Design**

Shielded yoke design helps protect the motor from any adverse leaking from the wet end whilst still meeting all industry safety standards.

## davey.com.au

SPA

Option of single or two speed models offers lower running costs during filtration cycles.

High quality and heavy duty construction for long service life.

Corrosion resistant 316SS pump shaft, a great performer even in salt water applications for an extended pump life.

Three drainage points enable easy drainage & clearing of air locks.

Metal jacket capacitor installed for greater dependability & long service life.

Horizontal or vertical discharge options for flexibility in installation with optional mounting pads to raise the pump height & to further reduce vibration & pump noise.

Powerful pump performance and robust design. Shielded yoke offers protection from adverse leaking from the wet end.

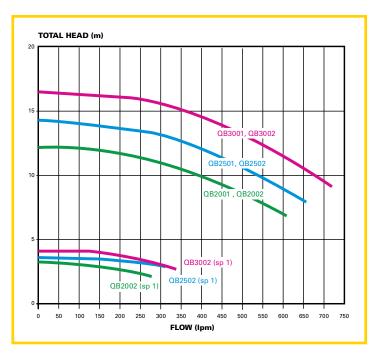

Large suction and discharge outlets offer high performance at lower noise levels.
