# The PoolCleaner™

## Patented Self Adjusting Turbine Vanes:

- allow passage of large debris, virtually eliminates clogging.
- maximise power from water flow.
- allow operation at low flow, with energy saving throat insert in place.

the **one** that **won't get stuck** in corners

## Features

### Patented Steering System

The PoolCleaner™ has a unique, patented steering system that enables it to clean pools of all shapes and sizes. The left wheel is set to reverse at intervals, turning the unit in different directions so it doesn't get stuck in corners.

### Patented Adjustable Skirts

The patented adjustable skirts have rollers that permit The PoolCleaner™ to maintain optimal suction, even when faced with the most difficult obstacles.

### Energy Saving Throat Insert

When using a variable speed pool pump, use the cleaner's small throat insert to allow it to operate at the pump's low speed/flow, resulting in reduced running costs. Instructions are in the user manual.

### Robust Tyre Treads

The PoolCleaner™ has patented tyre treads that ensure excellent climbing ability and the manoeuvrability to handle any obstacle, making it ideal for all pool shapes and surfaces. Special tyres are available for tiled pools.

### Stainless Steel Wheel Bearings

Non corrosive, stainless steel wheel bearings, minimise friction in wheels, which improves turbine torque, increasing suction power.

### Easy to Install

The PoolCleaner™ can be up and running in just a few minutes by following the easy instructions. Everything you need is in the box – no tools or additional components are required.

### 3+3 Warranty

The PoolCleaner™ comes with a 3+3 warranty (3 years full and 3 years pro rata)
